DETAILED ACTION

1. Applicant's amendment filed 11/21/2003 is acknowledged. Applicant's cancellation of claims 1-21 and addition of new claims 22-30 is acknowledged. Claims 22-30 are pending.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 22-30 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Information Disclosure Statement

Insofar as applicant filed an Information Disclosure Statement on 11/21/2003, the reference XP-002172972 has been lined through and removed from consideration. This reference would be considered upon resubmission of an Information Disclosure Statement referencing an abstract of the Japanese patent cited as XP-002172972.

Claim Objections

3. Claims 22-30 are objected to because of the following informalities: the spelling of "cyclosporine" in the claims should be made consistent with the spelling of the specification, i.e. "cyclosporin." Appropriate correction is required.

Claim Rejections - 35 USC § 112

Art Unit: 1653

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 22-30 provide for the use of cyclosporin, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.
